

BELIZE EDUVENTURE 2012

A transformative service-learning and adventure travel experience.

This unique live-it-to-learn-it experience is for educators and adventurers. It is a balance of professional development through serving schools in Belize and adventure travel with like-minded, passionate teachers. Belize, Central America is one of the top-ten adventure travel destinations in the world. To quote a former participant, "it is about so much more than the classroom, the personal growth I experienced was unforgettable." I invite you to push your personal limits and renew your passion for teaching, June 17-21, 2012.
